Re: IEPA Referrals

Dear Mr. Bruce:

The Illinois Environmental Protection Agency hereby requests that the Emergency and Enforcement Branch USEPA Region V consider for removal actions the following sites in Illinois:

Performance One

ILD984862375

5024 Torque Road

Loves Park, IL 61111

(POC for Performance One is Russ Gruner 815/653-8500)

Site is an abandoned plating shop with vats of plating waste left on site. Kerry Keller of the IEPA's Rockford regional office can be contacted at 815/987-7404 for information and to arrange a site visit.

Park Plating

ILD005431101

923 River Lane

Loves Park, IL 61111

(POC for Park Plating is John W. Gruner 815/877-7634)

Site is a plating shop which burned leaving contaminated soil on site. Kerry Keller of the IEPA's Rockford regional office can be contacted at 815/987-7404 for information and to arrange a site visit.

Standard Scrap Metal

ILD0456986263

4004 South Wentworth Avenue

Chicago, IL 60609

(POC for Standard Scrap Metal is Steve Cohen 312/924-4004)

Site is an active scrap yard in operation since 1928. A wire burner is in operation and the contents of transformers have been dumped on the ground. Mark Weber of the IEPA's Pre-Remedial Unit can be contacted at 217/524-4825 for information and to arrange a site visit.

Lake Salvage**No ILD #**

2527 West Lake Street

Chicago, IL 60612

(No POC has been identified)

Site is a one-half acre former incinerator facility with 80 abandoned drums on site.

Dioxins, metals, and PNAs have been identified on site through previous sampling. Ken Corkill of the IEPA's Pre-Remedial Unit can be contacted at 217/524-1664 for information and to arrange a site visit.

Donovan Property (A)**No ILD #**

Section 28 T15N R8W

Jacksonville, IL 62650

(POC for the Donovan Property (A) is John Donovan 217/546-1950)

Site contains a trailer full of pesticides and approximately 25 drums of uninventoried liquid wastes.

Dave Jansen of the IEPA's Springfield regional office can be contacted at 217/786-6892 for information and to arrange a site visit.

Donovan Property (B)**No ILD #**

1400N and 3150E Roads

Alexander, IL 62601

(POC for the Donovan Property (B) is John Donovan 217/546-1950)

Site contains three(3) large tanks with unknown contents and approximately 25 drums of uninventoried liquid wastes. Dave Jansen of the IEPA's Springfield regional office can be contacted at 217/786-6892 for information and to arrange a site visit.

Latham Fertilizer**No ILD #**

First and Main Streets

Latham, IL 62543

(No POC has been identified)

Site contains leaking above ground storage tanks filled with various agricultural chemicals. John Sherrill of the IEPA's State Sites Unit can be contacted at 217/785-5697 for information and to arrange a site visit.

Mark Twain Industries**ILD042665877**

Industrial Park

West Frankfort, IL 62896

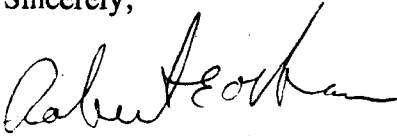

(POC for Mark Twain Industries is Zane Neely 618/932-3148)

Site contains over 100 drums of hazardous waste and at least one(1) leaking underground storage tank. Tom Edmondson of the IEPA's Marion regional office can be contacted at 618/997-4371 for information and to arrange a site visit.

993-7200

Please let me know by telephone as soon as possible which, if any, of these sites the Emergency and Enforcement Response Branch USEPA Region V may be able to address. Thanks again for your cooperation.

Sincerely,

A handwritten signature in cursive script, appearing to read "Robert E. O'Hara".
